

# SILICA MAX 500 ml

Silica, a nutrient-rich mineral found in the earth, is also naturally present in the human body. Silica can be collected from the Earth and transformed into consumable substances...which is silicon.

## What is silicon and what is its function in the body?

Silicon is a macromolecule in connective tissue. Silicon is the essential trace element that is derived from silica, which is crucial to the formation and maintenance of connective tissues in the body. Large quantities are found in skin, muscles, tendons, cartilage, and bones. The older we get, the less are found in our tissues, which is why it is important to substitute this loss by daily compensation in the form of supplements. When it comes to skin elasticity, silicon is the element that increases levels of hydroproline (an amino acid required for collagen) in the body tissues.

It is a natural anti-inflammatory, powerful antioxidant, anti-sclerotic, and fights degeneration. It is involved in tissue regeneration and makes the arterial wall more supple. Further, it stabilizes calcium in bones and dislodges it where it is unsuitable.

**Silica is required for the production of collagen.** It crosses the gastric barrier by more than 80%. This means it helps heal digestive issues and gut inflammation.

## What Are the Benefits?

Stimulates synthesis of collagen and elastin. Silica is sometimes called the “beauty mineral” because it improves skin elasticity, nail growth, and hair...and further gums and teeth. It is known to bring more luster and shine to hair, and to help it to grow longer and faster. By carrying nutrients to the hair follicles,

<p><b>SAFETY SEALED FOR YOUR PROTECTION</b> USAGE: MINERAL SUPPLEMENT. SOURCE OF SILICA.</p> <p><b>Directions for use:</b> Take one teaspoon (5 ml), three times daily or as directed by a health care professional. Take 5 to 10 minutes before each meal. The evening dose can be taken just before bedtime. Keep in the mouth at least one minute before swallowing. Can also be simultaneously applied externally on affected areas for maximum synergy.</p> <p><b>Recommended duration of use:</b> Consult a health care practitioner for use beyond 4 weeks.</p> <p><b>Medicinal ingredients:</b> Quantity per daily dose (15 ml): Silica/Silicium (Méthylsilantrol).....30 mg</p> <p><b>Non-medicinal ingredients:</b> Water, sodium, benzoate 0.02%, potassium sorbate 0.05%</p> <p><b>BIO-AVAILABLE SILICA</b> Over 60 years of research</p> <p>  </p>	<p><b>SILICA MAX</b> Silica Solution</p> <p></p> <p><b>COLLAGEN BOOSTER</b> <b>BOOSTER DE COLLAGÈNE</b></p> <p>500 ml <small>NPN 80050408</small></p>	<p><b>BOUCHON SCÉLÉE POUR VOTRE PROTECTION</b> USAGE: SUPPLÉMENT MINÉRAL. SOURCE DE SILICE.</p> <p><b>Mode d'emploi:</b> Prendre une cuillère à thé (5 ml), trois fois par jour ou selon les directives d'un professionnel de la santé. À prendre 5 à 10 minutes avant chaque repas. La dose du soir peut être prise juste avant le coucher. Garder dans la bouche au moins une minute avant d'avaler. Peut également être appliqué simultanément en externe sur les zones concernées pour une synergie maximale.</p> <p><b>Durée d'utilisation recommandée:</b> Consulter un professionnel de la santé pour une utilisation au-delà de 4 semaines.</p> <p><b>Ingédients médicinaux:</b> Quantité par dose quotidienne (15 ml): Silice/Silicium (méthylsilantrol).....30 mg</p> <p><b>Ingédients non-médicinaux:</b> eau, benzoate de sodium 0,02 %, sorbate de potassium 0,05 %</p> <p><b>SILICE BIO-DISPONIBLE</b> Plus de 60 ans de recherche</p> <p><small>Manufactured in Canada by/Fabrique au Canada par: Les Importations Herbésaires Inc. Montreal, QC, Canada HAN 2B3</small></p>
--	--	---

it helps to supply hair with the fuel it needs to grow thick and strong. By helping to balance the body's hormonal balance, it also succeeds in helping to prevent hair thinning and hair loss.

Again, healthy hair, skin, nails, and flexible arteries would be impossible without silica. Silica is critical to our well being, but it's difficult to assimilate from a normal diet.

### **Which is better silica or biotin?**

**Biotin can jumpstart your hair growth while silica reduces shedding, improves the health of your hair, and provides powerful overall anti-aging benefits.**

**Silica can help lubricate your joints:** Silica has been shown to stabilize and lubricate your joints while also reducing the levels of inflammation in your joint tissues. Silica can be considered as the structural glue holding our bodies together. It reduces bone breakdown and stimulates new bone formation. (That's a rare combination most nutrients don't offer.)

**Silica can:** Stimulate osteoblasts (your bone-building cells) by increasing protein collagen synthesis.

**One of the beautiful products in the Aura program is Silica Max,** the most effective therapeutic tool in neck pain, low back pain, and lumbar sprains. Beneficial for multiple problems, particularly due to its penetration capacity and its tissue regeneration qualities. It is the original product, undiluted and with an elevated level of organic silicon. This truly natural product is the result of the pre-digestion of quartz crystals by microorganisms. This method of extraction is exclusive to G5 Ireland. It is a 5th-generation pure monomethyl silane triol.

It is not stabilised with acetylsalicylic acid. It is the result of the latest research in organic silicon.

Its bioavailability is very high. 30 mg per dose 1 tsp.
